

Indiana's Telephone Privacy law has been a blessing. I was getting 15 to 20 calls a week now I don't get any. I can actual relax with my family without those unwanted calls.

Any proposal that would lessen Indiana's Telephone Privacy law protection should be tossed out the window.I signed up saying I did not want the calls, Why would they want to call if I don't want to hear what they have to say . I am not going to buy anything. If I want to buy something I will call the people I want to do buisness with.They can advertise like other buisness's K-Mart doesn't call when they want more buisness they run an ad. Then I can read when I can not run to the Phone when I am bathing the kids or eating dinner ect.I do not want any changes to the law.
